- Apply advanced patterns to work with backends designed according to DDD and CQRS pattern.

PROJECTS

Code Images   *Personal project*

Enabling users to create and share visually appealing images of code snippets. The application allows users to input code, customize the appearance (e.g., syntax highlighting, themes), and generate downloadable images.

Source code   *Demo*

TripConnect   *Graduation project*

A full-stack web application designed as a social travel network. It enables users to explore, book, and review tours while connecting with tour guides and fellow travelers.
